Re: Electricity Transmission Assets Analysis (the "Review")

Dear Chairman

Further to your letter dated 23 August 2010 and to our previous correspondence in respect of the above Review, I have been instructed by the ESOP Trustee Board to formally request a copy of Frontier Economics' draft report.

Your letter dated 28 April 2010 confirmed that the draft conclusions would be made available to all stakeholders prior to being finalised and you might please confirm that, in accordance with the principles of natural justice, transparency and best international practice, all parties will receive their copies at the same time.

We await the draft report with interest.

Yours faithfully

David Beattie
Chairman
